

Cloud Forest Birds of Northwest Ecuador

Dušan M. Brinkhuizen - January 2011

Introduction

Our Cloud Forest Birds of Northwest Ecuador is a nice introduction to the Andean-Chocó region. The Chocó Endemic Bird Area supports the largest number of restricted range birds of any EBA in the Americas with over 50 species being endemic to the area. In a week time we bird different elevations ranging from 3500m to 400m. We target a wide range of bird species and visit a good set of different habitats. The tour is based at Reserva Las Galarias which has over 400 hectares of cloud forest and a comfortable guesthouse. Las Galarias is located in the Mindo region which is one of the Important Bird Areas (IBA) in Ecuador.

Tour itinerary

22 January - Quito → Yanacocha → Nono-Mindo road → Reserva Las Galarias

23 January - Reserva Las Galarias

24 January - Milpe Bird Sanctuary

25 January - Rio Silanche Bird Sanctuary

26 January - Bosque Protector Mashpi

27 January - Refugio Paz de las Aves → Mindo Valley

28 January - Bellavista → Tandayapa Valley → Calacali → Quito

Species List of Birds

The taxonomy of this list follows: Ridgely, R.S. & Greenfield, P.J. (2006). Aves del Ecuador, Vol I. Quito: Colibri Digital
